

ALLEY TACO'S

SINGLE TACO RECIPE

Recipe Courtesy: Chef Jason Frenkel, Alley Tacos

- 2 - corn tortilla shells
- 1 - chopped onion of your choice
- 1 - bunch of minced cilantro
- 2 oz - your favorite filling
- 1 - Tsp of Corn Oil

Take two shells for each taco and place them in the hot corn oil on a pre-heated pan. Grill both sides of the corn tortillas until golden brown. Note, this can also be done without oil should your diet require, but oil is preferred.

Heat up your preferred meat filling in a pre-heated skillet and place in the center of your taco shell. Top your taco with cilantro and onion in any order. Feel free to experiment with unique fillings and toppings to add more spice to your taco based on your tastes. It is also easy to add queso fresco for the non-vegans at your table.
